**VIII. CHILD GUIDANCE:** Policy Effective Date: POLICY EFFECTIVE DATE

Children's behavior will be guided by setting clear limits or rules for children. I will talk with children about expected behaviors and model those behaviors consistently for them. Children will be given a wide variety of age-appropriate activities to choose from and will be given the attention they need before they demand it. Behavior management will be for the purpose of helping children develop self-control, self-esteem, and respect for the rights of others.

I understand that there will be times when a child will become distraught, fussy, or have periods of crying. My first action in these situations will be an attempt to determine the cause of the distress. It may be related to a basic need such as hunger or comfort, or it may be that the child just needs some extra time and attention. I understand that crying is normal, and that all babies experience normal increased occurrences of crying during their development. At these times, I will stay calm and will do whatever I can to soothe your child. Sometimes this may mean just allowing the child to cry for a few minutes and then trying again. However, there also may be times when I need your advice or assistance, and I won't hesitate to call you if I feel that it is necessary.

**Time outs: Select options 1 or 2 below. Delete the other option paragraph.**

**Option 1** –I do not use "time-outs" to deal with unacceptable behavior.

**Option 2** –I use "time-outs" to deal with unacceptable behavior. A "time-out" or "take a break" may be used when other techniques have not been successful. A time-out will be used to remove a child from a situation that has gotten out of control before a child can hurt him/herself or others. Time-outs will never exceed three minutes and will not be used with children under three years of age. When used, the time-out will immediately follow the behavior. I will stay with the child and talk about what behavior was unacceptable, and what else s/he might have done or said instead. Rather than use a specific time-out chair or corner, I will have the child "take a break" near the others so the emphasis is on relax / cool down rather than isolation and punishment. The child will be transitioned back to an activity.

I recognize that no single technique will work with children every time. If a child exhibits unacceptable behavior, I will request a conference with parents to consider how to deal with the behavior. If the behavior continues, the next steps may include referrals to appropriate community resources and / or discharge of the child from care.

In accordance with DCF 250 Licensing Rules for Family Child Care Centers, actions that may be psychologically, emotionally, or physically painful, discomfoting, dangerous, or potentially injurious are prohibited. Prohibited actions include spanking, hitting, pinching, shaking, slapping, twisting, throwing, or inflicting any other form of corporal punishment on the child; verbal abuse, threats, or derogatory remarks about the child or the child's family; physical restraint, binding, or tying the child to restrict the child's movement; enclosing the child in a confined space such as a closet, locked room, box or similar cubicle; withholding or forcing meals, snacks or naps; actions that are cruel, aversive, humiliating or frightening to the child; or punishing a child for lapses in toilet training. These forms of punishment will never be used, even at a parent's request.
