*Child care counts has been key to keeping our doors open. Keeping our rates competitive and paying our teachers decent wage. In order to continue to provide quality care with the teachers we currently have, we will need have the continue help from the state. Otherwise we will either need to raise our families tuition or close our doors due to not being able to pay our staff.*

*Partner Up! and Child Care Counts have been integral in keeping our center financially stable and helping us to retain/attract quality staff. Without the continued support from these programs, we are worried we will not be able to remain in business for long. If we do, our services will need to change (higher ratios, less coaching, training and mental health support for staff, reductions in benefits and tuition assistance, large tuition increases for families, elimination of many family-friendly policies (sibling discount, vacation credits, holding fees etc.), and less capacity to accept children with exceptional needs.*

*Child care is vital to our economy. It needs to be sustained. Help us thrive and not only survive. Invest in early childhood care. Thank you!*
